A look at next week ... Celebrate with the best at Grygla Fall Fest!

Opening night of The Hound went great; they were definitely busy! Photos courtesy of Lindsay Oslund

“It was great to see everyone out again!”

That was what one of The Hound owners, Stacy Carter, said about last Friday's opening of the doors! The Hound Pub & Dining officially opened for business last Friday, August 12th. A limited bar menu is currently available with more items being added in the near future!

The Hound is owned by Mark Du Randt, Lisa Erickson and Stacy Carter, who have all put in a lot of work over the summer! The crew started by taking the carpet off the walls, doing a lot

of painting, putting in new flooring in the kitchen, dining room and bar. They added new light fixtures, a few “glam” touches to the women's restroom, in addition to a lot of other little upgrades you'll have to go check out! The back room is still being worked on with hopes of having that completed by December.

Hours
Mondays: Closed. Tuesday-Thursday: 11am-1am. Sundays: 11am-8pm.

New owners Stacy Carter, Mark Du Randt and Lisa Erickson are pictured in front of their new Blodgett Deck Oven. Photos courtesy of Lindsay Oslund

Grygla Fall Festival wants YOU

The Grygla Fall Festival will be held next weekend, Saturday & Sunday, August 27-28th. A full poster will be shared on the back page of next week's Grygla Eagle. In the meantime, here are a few reminders for you!

Vendors wanted for Farmers Market
There will be a Farmers Market at the Grygla Fall Fest on Saturday, August 27th, from 9:30am-3:30pm on Main Street east of the Veterans Memorial. To reserve a spot, contact Rose Hanson (218-280-5944) or Rose Aune (218-689-0416). The cost is \$10 a table with set up beginning at 7:30am. Welcome arts, crafts, handmade goods, vendors, and independents.

Buttons
Grygla Fall Fest is coming up! Buttons can be purchased for \$8 in advance or \$10 at the gate. They will be available at the following businesses until Friday, August 26th.

American State Bank, Goodridge Municipal Liquor Store, Grain Bin Café, Grygla General Store, Farmer's Union, Farmer's Union Ag, Fourtown/Little Willy's, Machinewell, Inc., Skime Store, Sue's Beauty Shop.

A button is needed for the Sloughgrass Band at 3:30pm

and Odd Man In at 8pm. Buttons will be numbered with the FF Committee drawing for 3 cash prizes and posting the winning numbers on Saturday, August 27th. (1st place \$200, 2nd place \$150, 3rd place \$100)

Co-ed Sand Volleyball Tournament
Located north of The Hound (formally known as Yo-Hawn's). Pre-registration is preferred or register day of from 9:00-9:20am. 4 team min/12 team max. \$5.00/person for ages 18 & up. Prizes will be awarded. Contact Jodi Schulz (218-689-1454) or Leah Schulz (218-689-6523).

Looking for little farmers/cowboys/cowgirls
There will be a Best Dressed farmer/cowboy/cowgirl contest located on Main Avenue at 12pm on Saturday of Fall Fest. This is for age groups 0-3, 4-7, 8-10 with prizes being awarded. (Sponsored by Stanley Farms.)

Bush car racing
New this year! Located south of The Hound (formally known as Yo-Hawn's). The fun starts at 4pm! Sponsored by Grygla Lion's Club, Fourtown/Grygla Sportsman's Club & Grygla JCC's. Entry fee is \$25. Contact Ryan Petersburg (320-815-1996).

Grygla City Council approves July Minutes

The August meeting of the City Council was held at the Grygla Civic Building on Monday, August 8th. Council members approved the July minutes, which are included below. Official minutes are taken by Grygla City Clerk and recapped by Eagle Editor. For the full version, including receipts & disbursements, visit www.grygla.govoffice2.com

The regular meeting was called to order at 7pm at the Civic Building by Mayor Mosher with the following council members present: Gavin Nordby, Lindsay Oslund, Devin Ruud and Karla Byklum. Absent: None. Also present was Rose Aune and Tony Nordby, from Houston Engineering.

Council approved minutes, along with receipts, disbursements, checking, savings & total balances for that month. The payment of all bills was also approved. Other items included:

FIRE HYDRANT BY COOP STORE
Tabled until Spring 2023.

COMMUNITY CENTER
There was nothing new to report.

FLOOD WATER DIVER-SION
Tony Nordby, from Houston Engineering, was present to go over a few options to help with flooding within the city. He suggested checking with County Commissioner Gary Kiesow, Marshall County Highway Engineer Lon Aune, and Myron Jesme with the watershed for options outside of city limits. Tony also suggested checking with the Conservation Corps in Warroad about having ditch cleaning done.

PARK BATHROOMS
The park bathrooms have a plugged sewer line that needs repair. There has been talk

about wanting to get those bathrooms upgraded. They are what a lot of people from out of the area see when they come to football games, or people just passing through town, or during the evenings/Sundays when businesses aren't open. City plans to check with the school to see if they would be willing to help finance it or maybe do a fundraiser.

WATER TOWER
There was nothing to report at this time.

PLAYGROUND EQUIP-MENT
Ruud is hoping to have the playground equipment set up by Fall Fest.

AIRPORT BUILDING/RUNWAY
Looking into the costs of adding a building and changing to a paved runway. Council is looking into a grant that the city might qualify for being the runway is available for emergency medical landing use.

FEMA REIMBURSEMENT
Application forms have been sent out. Rocky & Rose need to go over what needs to be all included on them.

PICNIC TABLES
They were delivered and waiting to be installed.

WORK CONTRACTS
Nordby made a motion, seconded by Oslund, to approve the Work Contract for 2022, which is to increase Rose and Rocky's wages \$0.50/hr, to discontinue the \$2/hr benefit pay and pay 100% of single coverage for Blue Cross Blue Shield Advantage High Plan health insurance coverage through the city instead. Kenny's wages went up to \$16/hr.

EXTRA MEETINGS
Nordby, Oslund, and Mosher had a meeting about the airport.

Foster Grandparent Volunteer Program

If anyone over the age of 55 has a passion for putting smiles on a child's face, the Foster Grandparent Program is the place for you. A Foster Grandparent volunteer works in partnership with your local school and teachers in the classroom to provide mentoring, tutoring and supervision to students who would benefit from extra special attention.

The volunteer would work in small groups or one-on-one with students, helping with spelling words, reading, writing or reminders to listen to the teacher. If this is something that interests you, please contact the Foster Grandparent Program at 218-281-5832 or 1-800-584-7020 or email trivaleyseniors@tvoc.org for more information.

The Marshall County Highway Department is currently accepting applications for the following full-time positions:

Survey Crew Leader
Primary duties include highway/bridge design and construction surveying and inspection, AutoCAD Civil 3D, other computer applications, and applicable engineering duties. A diploma or AAS degree in Civil Engineering Technology or related field from an accredited post-secondary institution or equivalent training and experience is preferred but not required.
Applications are available on the Marshall County website (<http://www.co.marshall.mn.us/>) and at the Highway Department office, 447 So. Main, Warren, MN 56762.
Pay range is set by the County Board, depending on experience from \$23.71 to \$32.09, plus \$0.71/hour hazard pay. This position is open until filled.

Engineering Technician I & II
Primary duties include highway/bridge design and construction inspection, AutoCAD and other computer applications, and other applicable engineering technician duties. Job related experience and/or Civil Engineering Technology degree is preferred, but not required.
Applications are available on the Marshall County website (<http://www.co.marshall.mn.us/>) and at the Highway Department office, 447 So. Main, Warren, MN 56762.
Pay range is set by the County Board, depending on experience.
Engineering Technician I: \$22.63 to \$30.44, plus \$0.71/hour hazard pay
Engineering Technician II (Certified): \$23.71 to \$32.09, plus \$0.71/hour hazard pay
This position is open until filled.

Food Shelf hours

The Grygla Food Shelf is open this Saturday, August 20th, from 8-10:30am. Please make note that the hours for September are 8-10:30 on Saturday, September 24th. Anyone who is experiencing a hardship, low/limited income, or just needing a little extra wiggle room is welcome to visit Grygla's Food Shelf where volunteers are happy to assist you with your grocery needs.

Yearbooks on sale

The Grygla School yearbooks have arrived. Stop into the school office to pick yours up or purchase one on sale for \$30.

Public input wanted as county updates Multi-Hazard Mitigation Plan

Marshall County residents, business owners, nonprofit members, and community leaders now have an organized opportunity to share how severe weather events impact their property and lives. There is also an opportunity to share their ideas on how to reduce the impact in the future.

The Marshall County Office of Emergency Management is working with U-Spatial at the University of Minnesota Duluth to update the county's Multi-Hazard Mitigation Plan (MHMP). The plan assesses the natural hazards that pose risk to the county, such as tornadoes, straight line winds, ice storms, blizzards, wildfire, flooding, and extreme temperatures and identifies ways to minimize the damage of future events. As the county works to update the plan, it wants to hear from the public.

The Marshall County MHMP is a multi-jurisdictional plan that covers Marshall County, including the cities of Alvarado, Argyle, Grygla, Holt, Middle River, Newfolden, Oslo, Stephen, Strandquist, Viking, and Warren. The Marshall County MHMP also incorporates the concerns and needs of townships, school districts, and area agencies or organizations participating in the plan. The plan will be updated by a planning team made up of representatives from county departments, local municipalities, school districts and other key stakeholders.

"Hazard mitigation planning is a central part of our emergency management pro-

gram," said Josh Johnson, Marshall County Emergency Management Director. "Understanding the natural hazards that can cause serious impact to our communities and taking action to reduce or eliminate the impact of future disasters makes us more resilient. Hazard mitigation helps us to break the cycle of damage and repair caused by things like flooding, ice storms, and severe wind events that can damage property, stress economies, and threaten life safety in our county."

Examples of hazard mitigation include:

- improvement of roads and culverts that experience repetitive flooding
- construction of safe rooms at campgrounds, public parks, mobile home parks or schools to protect lives in the event of tornados or severe wind events
- burying powerlines that may fail due to heavy snow, ice, or windstorms
- ensuring timely emergency communication to the public through warning sirens and mass notification systems
- conducting public awareness and education campaigns to help people be prepared to take safe action before, during, or following a hazard event.

Some mitigation activities may be eligible for future FEMA Hazard Mitigation Assistance grant funding.

Public input is an essential part of the plan update. As part of the planning process, Marshall County is seeking feedback from residents and businesses from across the county

to incorporate into the plan:

- What are the natural hazards you feel pose the greatest risk to your community?
- What concerns do you have, and what sorts of actions or projects do you feel would help to reduce the damages of potential future events for your personal property, your community, or the county as a whole?

Comments, concerns, or questions regarding natural disasters and potential mitigation actions to be included into the plan update process should be submitted to Marshall County Emergency Management by phone or email. Comments may also be submitted on the Marshall County Emergency Management Facebook page where this news release will be posted.

There will be additional opportunities for public feedback throughout the planning process. A draft of the plan will be made available for public review prior to submission of the plan to the State of Minnesota. Future news releases will be shared with the media to notify the public of these opportunities.

The Federal Disaster Mitigation Act of 2000 (DMA 2000) requires counties to update their plan every 5 years to maintain eligibility for FEMA's Hazard Mitigation Assistance (HMA) grant programs.

MARSHALL COUNTY RESIDENTS

2022 Household Hazardous Waste, Appliance, Television, Fluorescent Lamp, and Tire Collection

Marshall County will collect at a charge of **\$5.00 per item:** Unusable Freezers, Clothes Washers and Dryers, Dishwashers, Air Conditioners, Furnaces, Microwaves, Dehumidifiers, Stoves, Water Heaters, Refrigerators, TV's and Computer Monitors (Computer towers and printers are to be disposed in your regular garbage). Fluorescent Lamps are also accepted at a charge: 4' bulbs are **\$0.50**, all other bulbs are **\$0.75**. Oil and Latex Paint, Solvents, Acids, Caustics, Adhesives, Home and Garden Pesticides will be collected **at no cost**. Tires will be accepted at a variable rate depending on size/rim. Following is a list of the locations, dates and times at which you can bring in materials for disposal.

Materials are to be delivered during the hours stated for each drop-off site. If you cannot come to the drop-off site on these days, we will take the materials listed above at the Marshall County Demolition Landfill every Wednesday from 8:00 a.m. - 4:30 p.m. May through October.

Monday, August 22
Grygla - City Shop 10:00 a.m. to 10:30 a.m.
Gatzke - United Lutheran Church 11:00 a.m. to 11:15 a.m.
Middle River - Community Center 11:45 a.m. to 12:30 p.m.
Newfolden - City Parking Lot - Behind Fire Hall 2:00 p.m. to 3:00 p.m.

Wednesday, August 24
Oslo - by Fire Hall 12:30 p.m. to 1:00 p.m.
Alvarado - Marshall County Garage 1:15 p.m. to 1:45 p.m.
Stephen - Community Center 2:30 p.m. to 3:30 p.m.

Argyle & Warren - Marshall County Demolition Landfill
Located 4 miles south of Argyle on Hwy 75 or 5 miles north of Warren on Hwy 75
3:30 p.m. to 5:30 p.m.

Strategic Farming: Field Notes program discusses how best to manage pesticide-resistant insects and keep currently effective insecticides effective

Submitted by Angie Peltier, UMN Extension educator-crops, (218) 281-8692, apeltier@umn.edu

On the August 10, 2022, Strategic Farming: Field Notes episode, Bruce Potter, UMN Extension IPM Specialist, joined moderators and Extension educators Liz Stahl and Claire LaCanne for the “Pests bite back” edition to discuss how best to manage pesticide resistant insects and keep currently effective pesticides effective.

To listen to a recording of this episode subscribe to Strategic Farming: Field Notes on your favorite podcasting platform or visit this website: <https://strategicfarming.transistor.fm/#>.

The state of the state. So far this year, spider mite injury has been spotty, relegated to droughty areas of the state, but well-timed rain showers, dew and cooler, cloudy weather can reduce pressure. Soybean aphid infestations have been spotty in 2022, first appearing in river bottoms and along woodlots where their winter host resides. While aphid populations remain low in many areas, over the past week economic threshold-level populations have been observed in and increasing number of southern and western Minnesota fields. As soybean vegetative growth slows and ceases, large numbers of soybean aphids move within and between fields. At this point in the growing season it is very important for folks to be scouting whole plants, particularly for smaller and harder to spot aphids on the lower leaves of the plant or risk underestimating population densities.

What’s the audience’s view on soybean aphid thresholds? Audience members were polled about how they make the decision to spray for soybean aphid, with 59% indicating that they follow the research-derived economic threshold (of building populations of at least 250 aphids per plant on 80% of plants), 14% believe that this economic threshold is too high, 10% tank mix an insecticide when they apply a fungicide, 3% spray when custom applicators are spray, 3% when neighbors are spraying, 7% spray when their crop consultant tells them to and another 7% don’t spray.

Caution urged when tank mixing insecticide and fungicide. Bruce Potter assured the audience that even though crop prices are higher than in the recent past and folks are worried about losing yield, “soybean aphids have no idea how much you are going to get for a bushel of soybeans and they won’t eat any more when crop prices are high or any less when prices are low”. The 250 aphid per plant threshold is based on many years of trials across the Midwestern states (including Minnesota) and is “pretty darn conservative”, according to Potter. When population densities reach 250 aphids per plant, they haven’t yet caused feeding injury that will result in yield losses, rather the threshold was designed with a built in 7 to 10 day window to get an insecticide on before such yield loss can occur. According to Potter, “the 250 aphid/plant economic threshold should be used through the R5 stage. Aphids have less time to reduce yield as the growing season starts to wind down and yield loss from economic threshold populations becomes less certain after the R4 stage.”

While it is understandable that folks would like to save a trip across fields by tank mixing an insecticide with their fungicide. Potter says, “The other thing that happens if you are spraying an insecticide and a fungicide without regard for how many insects are out there is you are knocking out possibly both some beneficial fungi and insect predators and as aphids move into the field flaring aphids or spider mites if you’ve got hot, dry weather. When spraying fungicide, if you don’t have aphids, save a little money and keep an insecticide out of the tank.” This may result in threshold-level aphid or spider mite populations developing where they might not have. Unwarranted fungicide applications can also negatively affect entomopathogenic fungi that help to suppress aphid and mite populations.

Keeping effective tools in the toolbox. We also do not have an unlimited supply of insecticide active ingredients at our disposal. Several years ago when pyrethroid-tolerant soybean aphid populations were first observed, many Minnesotans learned the “hard way” that soybean aphid is capable of evolving to overcome our management strategies. Reserving our insecticides for spraying threshold-level soybean aphid population densities is one way to

slow the evolution of soybean aphid populations tolerant to other insecticide groups. Newer, more selective insecticides (ex. Sivanto, Transform, Sephina) are on the market for treating them, but if folks still want to spray a pyrethroid insecticide, a tank mix with a neonicotinoid or one of the newer products is recommended as pyrethroid-tolerance is likely to be a fixed trait still present in Minnesota soybean aphids. According to Potter, “spraying just a pyrethroid is pretty risky”.

Potter stresses the importance of season-long scouting for crop pests. Scouting for Bt-resistant corn rootworm populations is an excellent reason to scout corn this year. One can both see how well their Bt trait is/isn’t holding up and the population densities that corn crops in 2023 may encounter.

To watch the live webinar from 8 to 8:30 am each Wednesday morning and ask your questions directly of presenters, get your season-long passport to Strategic Farming: Field Notes by registering once (<https://extension.umn.edu/courses-and-events/strategic-farming-field-notes>).

Strategic Farming: Field Notes program discusses how best to manage pesticide-resistant weeds and keep currently effective herbicides effective

Submitted by Angie Peltier, UMN Extension educator-crops

On the August 10, 2022, Strategic Farming: Field Notes episode, Dr. Tom Peters, UMN/NDSD Extension Sugarbeet Agronomist joined moderators and Extension educators Liz Stahl and Claire LaCanne for the “Pests bite back” edition to discuss how best to manage pesticide resistant weeds and keep currently effective pesticides effective.

To listen to a recording of this episode subscribe to Strategic Farming: Field Notes on your favorite podcasting platform or visit this website: <https://strategicfarming.transistor.fm/#>.

Audience asked about their weeds’ herbicide resistance. Audience members were polled before the discussion began about whether they think that they have weed resistance to any of the six most commonly used herbicide groups. Twenty-seven percent of audience members completing the survey indicated that they didn’t think that they have resistant weeds on their farm. However, 68% believe they have weeds resistant to glyphosate (Group 9, ex: RoundUp Powermax3), 27% to ALS inhibitors (Group 2, ex: Classic), 18% to PPO-inhibitors (Group 14, ex: Cobra), 9% to glufosinate (Group 10, ex: Liberty) and 5% to atrazine (Group 5, ex: AATrex). Dr. Peters shared with the audience that “because weeds are able to evolve resistance to multiple herbicide groups all in the same plant, it is not outside the realm of possibility that we could have waterhemp populations with resistance to Groups 2, 9 and 14.”

Calling for suspected herbicide-resistant weed seed submissions. To the best of our knowledge, glufosinate-resistant weed populations have not been found in Minnesota. Dr. Peters asked members of the audience to submit suspected herbicide-resistant waterhemp or common ragweed seed samples to UMN Extension weed scientist Dr. Debalin Sarangi, for additional study and potential lab confirmation. “If you are seeing some things that aren’t usual, we certainly need to hear about them,” says Peters. Follow these instructions for collecting and submitting a weed seed sample to Dr. Sarangi’s lab: <https://blog-crop-news.extension.umn.edu/2021/10/herbicide-resistant-waterhemp-and.html>.

Preserving currently effective herbicides. Thoughtful stewardship of our current herbicides is essential to maintain the efficacy of herbicides. For example, glufosinate is quite effective at managing waterhemp, one of Minnesota’s most difficult to manage weeds. But for this active ingredient to be effective long-term, care must be taken to follow IPM best management practices. Dr. Peters suggests that we “save Liberty for weeds that are less than 4 inches tall if you are using it post-emergence. Resist the urge to use Liberty when you’re compromising the value of the chemistry.” Reserving glufosinate application only for the crop in the rotation in which waterhemp management is most difficult and combining it with tactics such as planting into a ‘clean’ field and layering soil-applied residual herbicides will help to extend the viability of this active ingredient for effective weed management.

Noun

A place of great beauty, luxury, and contentment.

• SIMPLY DELICIOUS

By Kari Sundberg, Eagle Editor

An Omelette Grilled Cheese - the most delicious breakfast sandwich you didn’t even know you’ve been waiting for.

- Ingredients:
- 3 eggs, beaten
 - 1/4 cup red bell pepper, chopped
 - 1/4 cup cheddar cheese, shredded
 - 1/8 cup green onion
 - 1/4 cup bacon, cooked and chopped
 - 1/4 cup spinach, chopped
 - 1/2 teaspoon salt
 - 1/2 teaspoon pepper
 - 2 slices sourdough bread
 - 2 tablespoons butter

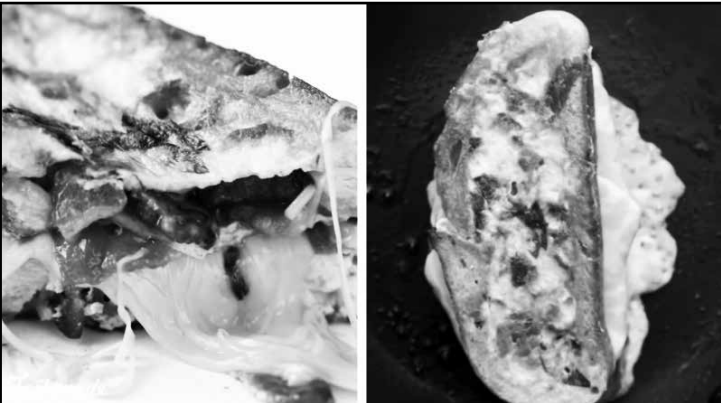

3 slices colby jack cheese

Instructions:

In a mixing bowl, add beaten eggs, peppers, cheese, green onion, bacon, spinach, salt and pepper. Mix until combined.

Cut out the center of the bread slices, leaving only the crust. Heat butter in a large nonstick pan. Place bread slices in pan and fill each piece with egg mixture.

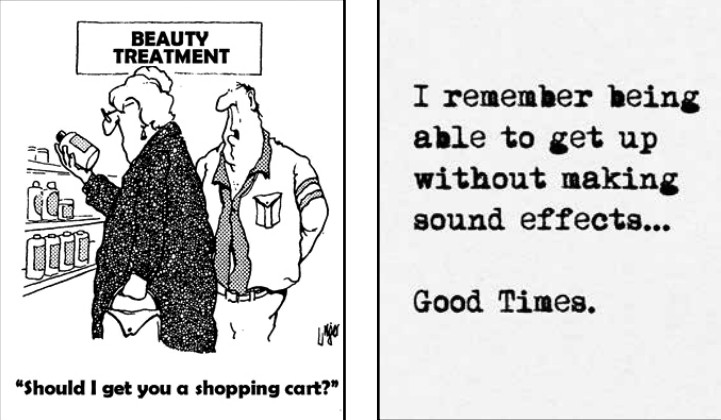

Cook about 3 minutes and flip. Cook an additional 3 minutes. Add cheese to 1 slice of bread. Top with remaining slice and place a lid over the pan to melt cheese. Remove from heat and serve.

BUS DRIVERS

Colette Brobst Bruce Kiesow Jake Sundberg
Wayne Warne Shannon Ostby

SCHOOL TRANSPORTATION

Bus routes will be included in the family packets. For increased safety of our students, in-town stops are included for students who wish to ride the bus before and after school. In-town stops will be approximately between 8:00 - 8:15. Please have your children ready early, these times may vary.

These stops are at:

1. The corner by the Machinewell welding building.
3. The corner of Sixth Avenue and Park Drive by the trailer court.

4. Liberty Avenue by the apartment buildings.
Afternoon return times on in-town stops will be approximately 3:30 PM.

Please ensure that your child/children are on time to accommodate all bus route stops.

If you have any questions regarding the bus routes, please give Shaunna Olson a call at the school (294-6155).

Thank you,
Jamie Lunsetter, Superintendent

IMMUNIZATION NOTICE

Immunizations must be up to date for a child to enter school. If your child needs immunizations you should have received notice earlier this summer. Please return the forms with immunization dates before school begins.

- USE OF MEDICATION -

In the Grygla Public School District #447, we follow the **recommendations of the MN Dept. of Education and school policy "Use of Medication"** regarding administering medication.

The school policy reads as follows:

Students and their parents or guardians will maintain the responsibility for administering necessary medications to students. In cases where a student may need adult supervision for taking medications, permission forms for school personnel to administer medications will be available in the office. These forms must be signed by the parent or guardian and returned to the office prior to medications being given out by school personnel. **Permissions form must be submitted each year!** Forms will be included in family packets.

- GRYGLA PUBLIC SCHOOL - INDOOR AIR QUALITY NOTICE

Grygla School District is proud to be taking a leadership role in providing a safe, comfortable and productive environment for our students and staff so that we achieve our core mission—educating students. Our school will follow the EPA guidance to improve our indoor air quality by preventing as many IAQ problems as possible, and by quickly responding to any IAQ problems that may arise. Good air quality requires an ongoing commitment by everyone in our school, because each of us daily makes decisions and performs activities that affect the quality of the air we breathe.

School staff, students and parents can obtain checklists or self-help information so they can properly evaluate their child's home or other out of school situation by contacting the school. Staff and parents can also obtain information about school facility construction, maintenance and housekeeping practices, chemicals used, mold and HVAC related information, chemical producing academic subjects, and pesticide and herbicide applications to determine the extent to which school activities contribute to a child's symptoms by contacting the school.

The Grygla School District Indoor Air Quality contact person is Jamie Lunsetter, Superintendent. If there are any questions regarding the school's IAQ Program, please feel free to call the school at 218/294-6155.

GENERAL INFORMATION

Telephone calls to the school for students should be made only when most necessary. Students will not be called to the telephone except in an emergency. A phone is available for student use in the main entrance doorway. A pay phone is also available in the gym lobby.

Our school day will consist of 7 periods per day. School begins at 8:30 am and ends at 3:19 pm. A student must be present for 4 periods during the day to get credit for a ½ day, and present in all 7 periods for a full day.

An informational packet will be mailed to your home the beginning of August. If you do not receive a packet please call the school to request one. This mailing contains: Lunch Information, Yearly Meal Plan & Menu, Bus Routes (if applicable), Kindergarten Information (if applicable), Internet Use Agreement, Data Privacy, and other school info that may apply. Please note that there is a 2022-2023 calendar in the Student Handbook for your convenience. This will help you to plan dr./dental appt., trips/vacation planning, etc.

The handbook will be reviewed the first day of school.

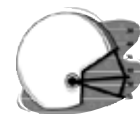

In order to keep our gym floors in good condition students are encouraged to have a pair of tennis shoes to use when PE classes and recesses are held in the gyms.

SPORTS, BOOK AND BAND DEPOSITS

We would like to remind parents of the Sports, Book and Band deposits that are required. We would appreciate it if parents would stop by the office before school starts or send checks with their students on Tuesday, September 6, 2022 if they have not done so. The Book and Sports deposits are \$40.00 each and are only for students in grades 7 - 12. Band deposits are \$40.00 for band students using school owned instruments. The Chromebook deposit is \$30.00. This is a one time deposit that will be refunded when the child graduates.

PARTICIPATION FEES - YEARLY

1. Student Passes for Grades K-12 will be \$30.00 (optional). Individual event passes for students will be \$3.00 per event. Students who have paid a sports fee will be admitted free to activities. Students in band will be admitted free to activities that they are performing at. Parents are encouraged to purchase student passes for their children who are not involved in sports or band.
2. Participation fees for students in grades 7-12 will be as follows:
a) Volleyball, Girls & Boys Basketball & Track - \$50.00
b) Football - \$60.00
No family will be charged more than \$200.00 for participation fees. (this is above and beyond the \$40.00 one time deposit)
3. Band Rental - \$40.00/year for students renting band instruments from the school.

Notice Regarding Lactose Reduced Milk

This is a reminder to families that Grygla School will make lactose-reduced milk available to any student upon receipt of a written request from any parent or guardian of a student who is lactose intolerant.

USDA is an equal opportunity provider and employer.

Free and Reduced Lunches

Our school funding increases as more families apply and are approved for either free or reduced lunches. This is a win-win situation for both our school district and for families who qualify. It saves you money and increases district revenue. Applications will be included in the family packets and can also be found on the Grygla School website.

If you think you might qualify for free or reduced lunches, please apply for these benefits. If you have any questions, please call Jamie Lunsetter at 218-294-6155.

2022-2023 SCHOOL YEAR NOTIFICATION

As a result of recent federal legislation (Asbestos Hazard Emergency Response Act - AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Grygla Public School has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Grygla Public School were inspected by EPA accredited inspectors and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Grygla Public School has completed their 3-Year re-inspection required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal and Operations and Maintenance. This past year Grygla Public School conducted the following with respect

to its asbestos containing building materials:

*Implemented our Operations and Maintenance Program
Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. In addition, the law requires all buildings to be re-inspected three years after a management plan is in effect. MacNeil Environmental, Inc will accomplish this under contract.

Short-term workers (outside contractors - i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information.

The Grygla Public School has a list of the location(s), type(s) of asbestos containing materials found in that school building and a description and timetable for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to MacNeil Environmental, Inc., Burnsville, Minnesota, at 800/232-5209 or by contacting the Grygla Public School.

NOTICE TO NEW RESIDENTS AND PARENTS IN GRYGLA SCHOOL DISTRICT

Parents or guardians of school age children who have recently moved into the school district are requested to notify the school of the move. Please contact the school AS SOON AS POSSIBLE to register new students so teacher and bus assignments may be made, and to ensure that an adequate number of textbooks and supplies will be on hand. For current residents who have moved within the district, please contact the school with your new address, so that school information may be mailed to the correct address, and your children will be assigned to the correct bus route.

Contact Grygla School Office with registration information @ 218-294-6155 or mail information to the following address:
PO Box 18, 114 N Fladeland Ave,
Grygla, MN 56727

... 2022-2023 SCHOOL YEAR KICK OFF ... WEDNESDAY, AUGUST 31ST ...

From 4:00 pm to 8:00 pm the teachers will be in their classrooms for an informal "Meet the Teacher". Parents and students are encouraged to come and meet their teacher and find out what to expect in their classroom. Teachers will have classroom rules, schedules and other information available for you to review. The office will be open. Avoid the first day of school waiting lines and stop in to drop off forms and pay lunch bills.

6th grade students and Parents will have an orientation at 5:00 p.m. in the Library.

7th grade students and Parents will have an orientation meeting at 5:30 p.m. in the Library. We will be covering what to expect in High school and introducing high school teachers.

9th grade students and Parents will have an orientation meeting at 6:00 p.m. in the Library. The major focus of this meeting will be on student schedules and the importance of planning your classes for the future.

12th grade students and their Parents will have an orientation meeting @ 6:30 p.m. in the Library.
