Divinity Hedlund was the winner of the Girls bike, donated by the McIntosh Fire Department for the kids who attended the Annual McIntosh Community Club Easter Egg Hunt held on Saturday, April 3rd.

Jackson Kaupang (pictured with his sister, Grace) was the winner of the boys' bike at the McIntosh Community Club Easter Egg Hunt held at Erickson Park. The bike was a donation from the McIntosh Fire Department.

## National Telecommunicators Week honors the first line of help in an emergency

National Public Safety Telecommunicators Week will be celebrated April 11 - 17, 2021. This week honors Telecommunicators (911 Dispatchers) who are the first link in the chain of emergency police, fire, and medical responses to those in need.

If you have ever been a victim or witness to a crime, involved in a motor vehicle crash, reported a fire or needed emergency medical assistance, you most likely have called 9 - 1 - 1. The reassuring voice who answered that 911 call was a "Telecommunicator", also more commonly known as a Public Safety/911 Dispatcher.

National Public Safety Telecommunicators week began in California in 1981, and quickly grew to a nationally recognized event. In 1990, the United

States Congress designated the second full week of April each year as a time to remember the critical role Dispatchers are tasked with in keeping

our communities and citizens safe.

On April 6, 2021, the Polk County Board of Commissioners signed a proclamation recognizing the important service Polk County Dispatchers provide 24 hours a day, 7 days a week to our citizens. There is a valid reason these folks on the other end of 9 - 1 - 1 calls and police radios are referred to as the "life-line".

They truly are the imperative conduit between those who call for help and delivering that help

During the week of April 11 - 17, 2021 please join the Polk County Board of Commissioners along with the Polk County Sheriff's Office in recognizing the critical work and services our Public Safety Dispatchers provide.

## WEM School has one lab confirmed COVID case

On April 5, 2021, Win-E-Mac School was notified of a lab confirmed positive COVID-19 person in our school community.

When working with Polk County Public Health (PCPH) we have determined that the risk of exposure at our school is low, and we wish the individual a speedy recovery.

Win-E-Mac School worked with PCPH to identify those who had close contact with the positive case and have already communicated with them individually, providing instructions on next steps.

If you or your family did not receive a phone call from the school, you were not deemed a close contact.

Case specifics are confidential, only those needing to know specific information were given any details. Close contacts do not get any case specific details.

A close contact is someone that has been within 6 feet of a positive case for 15 minutes or more throughout the day. The

risk of exposure for other individuals present at school on that date is no greater than the risk of contracting the virus in the community.

We understand this may create unease in our school community. We have taken action to clean and sanitize the facility and are working closely with PCPH to monitor the situation. We are asking all members of our school community to minimize the spread of illness by taking the following actions:

- **Protect yourself and others** by washing your hands often with soap and water; cover your cough and sneeze, avoid touching your eyes, nose, and mouth with unwashed hands.
- **If you are sick**, stay home from school and other activities.
- **Frequently** clean all commonly touched surfaces (e.g., telephones, doorknobs, countertops, etc.)
- **Maintain social distancing** of 6 feet or more as

much as possible.

• **Wear a face mask** or face covering that is double layered fabric.

If you start to feel ill, stay home and away from other household members. It is recommended you call your healthcare provider to be tested for COVID-19. Stay home until all these things are true:

- It has been 10 days since you first felt sick.
- You have not had a fever for the last 24 hours, without using fever reducing medicine.
- Symptoms have improved.

If your household contacts were exposed to you while you had symptoms, it is recommended they stay home for 14 days, monitor their health, and contact their medical provider for recommended COVID-19 testing.

If you or your family feel ill, take the appropriate actions to protect our school community, seek medical attention and we encourage you to report any COVID-19 health update to Amy or Heidi at 218-563-2900

## Covid-19 vaccines for 16 and 17 year olds

At this time, the Pfizer COVID-19 vaccine is the only COVID-19 vaccine that has been studied and authorized for use by people ages 16 and 17.

Data from Pfizer vaccine studies show the vaccine is safe and effective for this age group.

Other vaccine manufacturers are also studying their vaccines in younger age groups but have not yet received authorization from the U.S. Food and Drug Administration.

**Parent or guardian consent is needed for vaccination**

Parent or guardian consent is needed for COVID-19 vaccination of 16- and 17-year-olds, except under certain circumstances (see Minnesota Statutes, sections 144.341 (minor living apart) and 144.342 (minor who has given birth or been married)). We encourage a parent or guardian to go to

the vaccine appointment with their 16- or 17-year-old to learn about the COVID-19 vaccine and provide consent for the child to receive the vaccine.

If a parent/guardian is not able to go with the child to get their vaccine, ask the provider about their consent process and access to the Emergency Use Authorization fact sheet: Pfizer-BioNTech COVID-19 Vaccine EUA Fact Sheet for Recipients and Caregivers ([www.fda.gov/media/144414/download](https://www.fda.gov/media/144414/download)). This is like the Vaccine Information Statements given before other routine vaccinations. Make sure all your questions are answered.

**Looking for Pfizer COVID-19 vaccine appointments**

You can use the map on State of Minnesota: Find Vaccine Locations ([mn.gov/covid19/vaccine/findvaccine/locations/index.jsp](https://mn.gov/covid19/vaccine/findvaccine/locations/index.jsp)) to search for

providers who are offering COVID-19 vaccine to people ages 16 and older. Call the clinic before scheduling an appointment to see what vaccine they have available and understand their consent process. Some also include this information on their scheduling websites.

You can also find COVID-19 vaccine appointments at VaccineFinder ([vaccinefinder.org](https://vaccinefinder.org)), which allows you to filter by vaccine product to search for only Pfizer vaccine appointments.

Many vaccine providers are continuing to prioritize people in some of the earlier eligibility groups, like frontline essential workers and people with underlying medical conditions. It may take some time to find an appointment.

Please be patient. Everyone will have an opportunity to get vaccinated, it will just take time.

Great weather brought out a large crowd of eager kids who gathered on Saturday, April 3rd for the Annual McIntosh Community Club Easter Egg Hunt at Erickson park.

Magnus Vigoren on his first Easter Egg Hunt with the help of Grandma Sandra Jore at the Easter Egg Hunt held on Saturday, April 3rd in McIntosh.

## Tips to successfully grow tomatoes

Slicing into the first tomato of the season is a much anticipated moment for gardeners.

Tomatoes are among the most popular fruit or vegetable plants grown in home gardens. Much of that popularity may be credited to the fact that red, ripe tomatoes have a delicious, juicy flavor that serves as the basis for all sorts of recipes. And since tomatoes can just as easily be grown in a full backyard garden or in a container on a patio or balcony, tomatoes appeal to gardeners regardless of their living situations. While tomatoes are relatively easy to grow, they are prone to certain problems and pests. Knowledge of what to expect when planting tomatoes and how to start off on the right footing can help produce a season's worth of delicious bounty.

**Wait until after the last average frost date.**

Tomatoes can be grown from seeds outdoors in warm areas, but tomato gardeners often find success starting seeds indoors six to eight weeks before the last frost date. Gradually introduce seedlings to the elements for a few hours each day, increasing the duration of time outside. Then they can be transplanted outdoors when temperatures are consistently over 60 F.

**Choose a sunny spot.**

Tomatoes love to soak up sunlight, according to The Home Depot. Place the plants in a sunny spot so they can thrive.

**Space out plants.**

The experts at Better Homes and Gardens say to leave anywhere from 24 to 48 inches between plants to accommodate for growth and ensure the plants will not get stunted.

**Plant deeply.**

Tomatoes tend to root along their stems. If transplants are long and lean, dig a trench and lay the stem sideways in the dirt, and then bend the top of the plant upward.

Snip off the lower branches and cover with soil up to the first set of leaves. This will produce extra root growth and stronger, more vital plants.

**Give the plants support.**

Tomato cages or stakes can help keep the leaves and fruit from touching the ground, which can cause rot and, eventually, death to the tomato plant.

**Lay down a layer of mulch.**

Tomatoes grow best when the soil is consistently moist. Mulch can help retain moisture from watering and rain. Mulch also will help prevent soil and soilborne diseases from splashing on the leaves and plants when it rains. While you amend the soil, make sure that it drains well and is slightly acidic.

**Prune away suckers.**

Tomatoes produce "suckers," which are leaves that shoot out from the main stem. Removing these leaves promotes air circulation and keeps the plant's energy focused on growing fruit.

Tomatoes are a rich addition to any garden. A few simple tricks can help even novice gardeners grow delicious tomatoes.

### Thank You

I would like to personally thank everyone for your thoughts and prayers during the course of my illness. A special thank you to everyone that donated to the health benefit that was held in my honor. I would also like to thank Carrie Danielson, Devra Carlson, and Little Bobby for putting this event on. I would also like to thank Dr. Renschler and his team at Essentia in Fargo, who nursed me back to health. I also want to thank my sister, Rebecca Schommer for all her help and support during this time, she was my strength. I am home now and getting better each day. With much appreciation, Rachel Carlson

### Important Information Regarding Assessment and Classification of Property

THIS MAY AFFECT YOUR 2022 PROPERTY TAX PAYMENTS.

The Board of Appeal and Equalization for township of Sletten will meet on Tuesday, April 27<sup>th</sup>, 3:30 pm, at the Town Hall. The purpose of this meeting is to determine whether property in the jurisdiction has been properly valued and classified by the assessor.

If you believe the value or classification of your property is incorrect, please contact your assessor's office to discuss your concerns. If you disagree with the valuation or classification after discussing it with your assessor, you may appear before the local board of appeal and equalization. The board will review your assessments and may make corrections as needed. Generally, you must appeal to the local board before appealing to the county board of appeal and equalization.

Please note that because of COVID-19 guidelines, virtual attendance will be available upon request.

Given under my hand this 11<sup>th</sup> of February, 2021

Clerk of the Township of Sletten

April Weed  
of the Month: Habitat restoration

By: Shane Blair, Minnesota Department of Agriculture

Habitat loss is one of the most important causes of species decline in the United States. More and more people are looking to restore parts of their property, or their entire property, back to a natural setting. This is great news for native plants, insects, birds, and other wildlife that rely on native habitats for survival. However, this can be an intimidating process for folks that are new to the concepts of landscape restoration and unsure about what is native and what is considered invasive or noxious.

To successfully restore habitat, one must consider a variety of issues that could impact any project before a plan is developed. For example, there may be a history of invasive plants, the soil could be contaminated, or the site has a history of misuse. It is best to understand the past and current state of the site to establish a more native habitat for the future.

To begin the process of restoring a site, one must first create goals of what you would like to see in the future. Some folks like to restore the habitat for hunting purposes such as whitetail deer, grouse, turkey, and others. Some would like to restore the habitat for insects, plants, birds, and other non-game targeted species. Others may simply want to use habitat restoration to improve the soil and water quality on their properties. All these goals are great because they benefit

the overall landscape and the plants and animals that will begin to utilize these areas.

This article is not going to explain what to do step by step, but to show you that there is a plethora of resources out there. It is always important for landowners to look locally for resources and contact people who specialize in native habitat restoration within a few hundred miles of the area to be restored. This helps to ensure that a restoration plan is developed that takes into consideration the specific landscape and ecological parameters of the surrounding areas. The Minnesota Department of Natural

Resources is a great source of information to help better understand your area and provides a variety of information on topics including what types of vegetation to plant, how to protect your prairie, private land habitat, tree care, bird feeding tips and many more.

If you are a do-it-yourself kind of person and want to handle it all on your own, first, take the time to learn and understand what is already on your property, whether it is invasive plants, insects, or other undesirables. The Minnesota Department of Agriculture has extensive webpages dedicated to noxious and invasive plants and insect pests and diseases. You can find great pictures of insects and plants as well as information on prevention and management.

If you have a better understanding of what your goals are, you may want to consider reaching out to your local Soil and Water Conservation District. They can provide the technology, funding, and education needed to restore the habitat on your property. There are districts located all over Minnesota.

There are many great Minnesota companies that sell native plants, trees, and seeds. And there are a few Minnesota-based companies that are willing to provide full service ecological restoration.

Just remember, do your research first and then decide on what you want to achieve before you begin the process of restoring the habitat on your property.

40 years ago...1981: Russ Horacek and Steve Carlson in the MAC's (Men's Action Club) play, "The King's Creampuffs". The only legitimate reviews which have been received is that fun was had by all.

20 years ago...2001: The Win-E-Mac Varsity Knowledge Bowl Team, coached by Ann Vesledahl, has had successful contests as they began their regular season. Their Sub-Region contest is scheduled for March 28th and 29th. (Front, l-r) David Walstad, Amber Evans, Roxie Berg, Amanda Clementson; (second row) Jeff Gieseke, Matt Massmann, Conrad Strand, Brian Massmann, Matt Perkerwitz; (Third row) Jody Trandem, Adam Lundquist, Cathy Nephew, Carrie Oian, Holly Jones, LeAnn Johnson, Joe Faldet, Matt Finseth; (back row) Mike Lindseth, Darren Kringlen, Scott Ostenson, Travis Keeler, Cassie Oian and Kyle Jore.

30 years ago...1991: A few Father/son partnerships are still present in the Winger area. Gordy Sonstelie and his son, Gary, enjoyed some small talk at the Winger Cooperative annual meeting. Also seated with them are Gary's wife, Jull, and Floyd Balstad. Floyd's son, David, has recently joined him in the farming operation, but he was not present.

Polk Notice

Polk County Delinquent Tax List

NOTICE OF DELINQUENT TAXES

STATE OF MINNESOTA  
COUNTY OF POLK

DISTRICT COURT  
9TH JUDICIAL DISTRICT

TO: ALL PERSONS WITH A LEGAL INTEREST IN THE PARCELS OF REAL PROPERTY DESCRIBED IN THE FOLLOWING DELINQUENT TAX LIST.

A list of real property in Polk County on which delinquent property taxes and penalties are due has been filed with the district court administrator of Polk County. This list is published to inform all persons that the listed property is subject to forfeiture because of delinquent taxes.

The property owner, taxpayer, or other interested persons must either pay the tax and penalty, plus interest and costs, or file a written objection with the district court administrator. The objection must be filed by April 23, 2021, stating the reason why the tax or penalty is not due on the property. If no objection is filed, a court judgement will be entered against the property for the unpaid tax, penalty, interest and costs.

For property under court judgement, the period of redemption begins on May 10, 2021, and ends three years later. The period of redemption means the time within which taxes must be paid to avoid losing the property through forfeiture.

You may qualify to enter into a confession of judgement as an alternative method to paying off the delinquent tax amount and avoiding forfeiture. This allows you to pay the delinquent balance in equal annual installments, with a down payment due at the time you enter into the confession. The length of the installment plan varies: five years for commercial-industrial/public utility property; 10 years for all other properties.

It should also be noted by property homesteaders that you are ineligible to receive the Property Tax Refund while you owe delinquent property tax.

To avoid forfeiture, taxes on property must be paid by May 10, 2024.

To determine how much interest and costs must be added to pay the tax in full, contact the Polk County Taxpayer Service Center, Government Center, 612 North Broadway, Suite 207, Crookston, Minnesota, 56716-1452. The telephone number is (218) 281-2554.

# Calling 9-1-1: knowing your location is crucial to care

**By Connie Troska**  
There's a saying in the emergency services' world that goes like this:

"You may know where you are.

God may know where you are.

But...if dispatch doesn't know where you are  
You and God better be on good terms."

Calling 9-1-1 for any emergency is a very stressful time. Taking some time to think about a few things before ever having to call 9-1-1 can make a huge difference.

Before we go any further, let's talk about the job of a 9-1-1 dispatcher. I believe being a 9-1-1 dispatcher is one of the most challenging jobs there is.

You have someone ready to help you at a moment's notice. They answer your call and say, "Dispatch. What is your emergency?" When you start describing what you are seeing, you are creating a "story" in the first person. You are there, and you see exactly what is happening. As you begin to tell what you are seeing, the dispatcher now takes the information and begins creating their "story" in their mind. They are not seeing it firsthand, so if your "story" is not clear and concise, the dispatcher will have a difficult time relaying accurate information.

Now the dispatcher needs to relay the "story" to emergency personnel, who in turn create a "story" in their mind. Emergency personnel rely on that "story" to prepare while driving to the scene. What equipment should we be using? Is it safe? Do we need extra help?

So, what kind of information do you need? It's best to at least think about it before the need arises.

There are only a few pieces of information that are necessary. And a phone call that might seem like an eternity may only take about 30 to 60 seconds to get the most vital information the dispatcher needs. Those items are:

Location. Emergency personnel will be alerted while you are on the phone with the 9-1-1

## Ways Minnesotans can find “cushions” to improve personal finances

**April is Financial Literacy Month.**

April is Financial Literacy Month, an opportunity to increase your knowledge about money management and improve your personal finances. For LSS Financial Counseling, a nonprofit service that offers free financial assessments and budget counseling to the community, it's an opportunity to share advice and information about how to create a more stable financial future, especially as Minnesotans face financial uncertainty during the pandemic.

"With the uncertainty that COVID-19 creates, individuals and families may be a little on edge when it comes to finances," said Tasha Symiczek, a certified financial counselor with LSS Financial Counseling. "Many people are looking for ways to cut costs and build savings. The COVID-19 pandemic has caused some reduction in expenses for many. There are places you can find money you didn't know you had or discover where you are spending less on expenses. Discovering this unexpected treasure is like finding cash under your couch cushions."

**Some “cushions” you can look under to find that cash are:**

**Student Loan Payment:**  
An executive order is currently pausing payments and interest on all federal student loans until September, offering relief to borrowers.

**Day care:** Many parents are working from home and caring for their children either full-time or part-time, creating additional savings.

**Gym memberships:** If you're avoiding public places, you may be exercising and working out at home, forgoing the expense of a gym membership that can cost several hundred dollars each year.

**Sports and activities:** Many families are saving on sports equipment, clothing and additional fees as kids adjust to fewer sports opportunities during the pandemic.

**Clothing:** Minnesotans who are working from home are trading in business attire for more casual and comfortable clothing that is already in their closets.

**Entertainment:** With concerts, theater performances and other entertainment venues on hold, individuals are finding new ways at home and

dispatcher, so work with them. You staying on the phone will not delay emergency personnel's arrival. Location is one of the most essential pieces you can give.

Now, let's talk about location. In our minds, we can, in about one second, picture how to get to our house. But, remember, when creating that story, the dispatcher can not see the same thing you are seeing. They are in a call center in a different community or a county sheriff's department. Perhaps they are new to the area. So, now you must tell them how to get to your house. I challenge you to speak out loud the directions to your home from the nearest fire department. You will be amazed at how difficult it can be to describe the exact directions during a stress-free time. Now, imagine doing it when someone is sick or hurt. It is much more difficult.

"Well, they should be able to pull up my location based on my phone." That is very true. Dispatch capabilities have come a long way. However, what if there is construction or flooded roads that their GPS software does not know about. We'll talk more about phones in a bit. For now, speak, out loud, the directions to your house. Did you fumble on any of the street names, directions, number of blocks, or miles? Also, know your landmarks. The "big red barn" is an excellent landmark if there is only ONE big red barn. Think about what else you can use to guide emergency personnel to your location.

Nature of the emergency. Why are you calling? Be as specific as possible. Is it a fire, an automobile accident? Is it someone that is sick or appears in distress? Is it a behavioral emergency? Is it a special situation that requires specialized help or equipment (i.e., hazardous material)? Really try to describe the scene. Remember, the more prepared emergency personnel are, the better they can prepare.

The number of people involved and their condition. Let-

outdoors to add fun and enjoyment to their lives that are free.

**Vacations:** Minnesotans who elected to postpone family vacations over the past year saved a bundle.

**Gas:** For families working from home, average transportation savings can add up to \$2,000 annually for the average household.

**Eating out:** During the pandemic, many Minnesotans have saved on their budget by dining out less.

Symiczek suggests taking time to review your budget to determine where, and how much money, you have saved. Then, building a plan for what to do with new-found money so it doesn't get lost in everyday spending. If you're uncertain about employment stability or don't have an emergency savings account, she recommends putting the extra funds towards savings first.

"Ideally, you want to have enough money saved to cover three to six months' worth of living expenses," she added. "Once your savings is built up to a comfortable level, you can then use that extra money to

ting the dispatcher know the approximate number of people involved will help them dispatch additional resources. By omitting this piece of information, it delays the request for additional help. The condition of the people involved is also important. Knowing if they are breathing or have a pulse, have significant bleeding, or other life-threatening injuries/illness is vital information to pass on to the dispatcher.

Call back number. One of the first things the dispatcher may ask you for is your call-back number. If you get disconnected from Dispatch, they may call you back. Also, don't hang up until the dispatcher tells you to do so. They may be able to help you with emergency care. Just know that emergency personnel has been dispatched while you are on the phone.

Let's talk about cell phones.

In the past, calling 9-1-1 from a cell phone and the dispatcher being able to find your exact location has not been ideal. However, recent updates to cell phone operating systems have dramatically improved smartphones' ability to share exact locations with dispatchers. But, this technology does not cover flip phones or smart phones that are out of date. Even with these improvements, 9-1-1 dispatchers still run into challenges.

Cell tower locations may be in a different county or state, and they need time to work on your location. The FCC requires cell phone providers to give location information for emergencies. But, it may take up to 6 minutes to get that information. Six minutes is a long time when you want help. So, know your location!

Finally, if you know a dispatcher, thank them for the job they do. They certainly deserve the recognition and appreciation for one of the most challenging jobs there is!

*Connie Troska is a Program Developer with the Dancing Sky Area Agency on Aging. She is also a volunteer EMT on her community's ambulance service.*

pay down debt."

LSS Financial Counseling offers a wide variety of services to help people develop a budget, pay off debt, build savings, improve their credit, avoid foreclosure, manage student loan payments and pursue home ownership. In 2020, LSS Financial Counseling worked with more than 5,000 individuals and families to help them achieve the following results:

73% improved their credit score

68% successfully completed debt repayment; \$17,311,293 was returned to creditors

63% of homeowners at risk of foreclosure saved their homes

62% of student loan borrowers served reported payments were more affordable

81% reported increased financial stability

85% expressed increased confidence in their finances

*Most services are free and are currently offered over the phone and virtually. To set up a free financial counseling session with a certified financial counselor, visit [www.lss-financialcounseling.org](http://www.lss-financialcounseling.org) or call 1.888.577.2227.*

## The various ways to pay off student loan debt

Students and families invest heavily in higher education. Many students rely on student loans to finance their educations. In fact, students amassed \$1.56 trillion in student loan debt by 2020.

According to Forbes, American student loan debt is now the second highest consumer debt category, exceeded only by mortgage debt. The Institute for College Access and Success says the average student loan debt is \$32,731, while the median student loan monthly payment is \$222.

Some students feel like paying off student loan debt is impossible. Many loan repayment schedules kick in shortly after graduation, and certain borrowers may not yet be making enough money to afford even the minimum payments on their student loans. Thankfully, there are ways to get out from under student loan pressure.

**Investigate income-driven repayment.** IDR will lower student loan payments based on your income, and some plans even promise to forgive

any remaining balance once the repayment period is up. That period can take between 20 and 25 years.

**Make a move.** The Rural Opportunity Zone program encourages Americans to move to rural Kansas to help discourage population decline and to give others the benefits of a lower cost of living. Seventy-seven Kansas counties have been authorized to offer student loan payment incentives.

**Work in public service.** A Public Service Loan Forgiveness program, or PLSF, enables student loan forgiveness in exchange for working for a nonprofit or working in government.

**Refinance the loans.** Graduates may not be aware that they can refinance their student loans at a lower rate or choose new loan terms, including variable or fixed rates. Maturity dates can even be renegotiated in certain instances. It's possible to save thousands of dollars in interest by refinancing, particularly if borrowers have a credit score of at least 650.

## WEM announces 3rd quarter honor rolls

The following Win-E-Mac Junior and Senior High School students have attained either an "A" or "B" average in academic subjects for the third quarter of the 2020 – 2021 school year. To be eligible for the "A" Honor Roll, you need to have attained a 3.76 – 4.00 GPA (grade point average). To be eligible for the "B" Honor Roll, you need to have attained a 3.00 – 3.75 GPA. Congratulations to the following students.

### **Seniors:**

#### **"A":**

Remy Goodwin  
Gavin Haskett  
Alex Jacobson  
Avtonom Martushev  
Reed Neubert  
Dylan Roy  
Mia Thompson  
Gavin Walker

#### **"B":**

Felicity Andress  
Paige Breckel  
Bryce Duchamp  
Grace Kaupang  
Catalina Lewis  
Kendyl Nelson  
Noah Ostenaa  
Bryer Strom

### **Juniors:**

#### **"A":**

Anton Hickman  
Teagan Paulson  
Alivia Winter

#### **"B":**

Monania Erofeeff  
Eva Qualey  
Haley Sander

Maci Smeby  
Savahanna Svalen  
Hunter Trandem  
Scott Tyler

### **Sophomores:**

#### **"A":**

Bret DuChamp  
George Erofeeff  
Kallie Hand  
Zachary Luckow  
Nadelly Neubert

#### **"B":**

Anna Cymbaluk  
Logan Kalinoski  
Kaleb Morberg  
Jonathan Moritz  
Jamison Nichols  
Izabelle Ostenaa  
Laila Roragen  
Jonas Spry

### **9th Grade:**

#### **"A":**

Caleb Green  
Ava Howard  
Emily Strom  
Luella Strom  
Clare Stuhau  
Kyra Stuhau  
Kiana Tadman  
Hana Thompson

#### **"B":**

Kiersten Anderson  
Joseph Breckel  
Joshua Carlson  
Foma Cheremnov

Cameron Svalen  
Alexa Wentworth

### **Prom and Graduation**

Our School is entering a new stage with COVID 19 restrictions loosening up. Students will be able to have Prom on Saturday, May 1, 2021 and Graduation on May 29th. There will be Rules and Mandates our school will need to follow to host these events. We are planning to host a meal, Grand March and Post Prom party at the school with limited attendance. Graduation will host a larger number in attendance but exact numbers are yet to be determined. The school will air the Grand March on GVT cable. Listen for times as we get closer to the event.

### **MCA Testing**

Our mission at school is to help all of our students reach their full potential, and that is our commitment to students in all classroom levels. We know our scores will reflect the lack of knowledge gained due to the pandemic, but the scores will not be used against the district. MCA testing has begun this week and the Win-E-Mac School District students generally perform better than state averages on the Minnesota Comprehensive Assessments, "So we need to celebrate the proficiency of the majority of our students, while addressing the achievement needs of students who are struggling."

### **Free and Reduced Applications**

I cannot stress enough how important this application is

## Superintendents Notes

By Randy Bruer

for our School District. We are making cuts up to \$120,000 due to a Compensatory reduction of state funding. We have recently put the application on our school website for easy access. At the beginning of the next school year we ask families to fill this out so we have an accurate number by October 1, 2021 for the next school year.

### **Summer Programing**

The school district will offer a Century 21 program along with a re-energized summer rec program available from 7:30 am until 5:30 pm including a free breakfast and lunch to all kids. There is a fee for the summer rec activities and a fee of \$250 a quarter for the extended day for supervision after the programs until 5:30 pm,

through the summer. The District will offer a busing service to the cities within our district. There will be an informational meeting and sign-up for all who are interested on April 21 from 5:00-6:00 pm. The Century 21 program is open to volunteer workers if you have a talent to share with young students. Please call and arrange. This program is open to everyone, even if you work in another community. If you would like to find out more about the program, please call the District Office @ 218-563-2900.

### **Bus for Sale**

The District will ask for a bid on a 2000 Blue Bird GMC, 65 passenger diesel bus with 280,000 miles. We are asking for a minimum bid of \$850. For more information contact Scott in the Bus Barn. Send a bid to Win-E-Mac School District Office, 23130 345th st SE, Erskine, MN 56535. Side mark Bus Bid. Email: rbruer@win-e-mac.k12.mn.us. Bids due by April 17th, 2021.

### **Positions available**

If you know of someone looking for a bus driving job including bus routes, and extra-curricular or sub route driving, have them get in touch with the District Office. It takes a longer than normal period of time to complete the bus driver license process and we will help you with this process.

Silas Lee takes his Easter treats out of his eggs at the McIntosh Community Club Easter Egg Hunt with the help of his mom, Ashlee.

Alex Hedlund looks for eggs during the Easter Egg Hunt held on April 3rd at Erickson Park in McIntosh.

On the hunt for Easter Eggs at the McIntosh Community Club Easter Egg Hunt is Emma Kaupang.

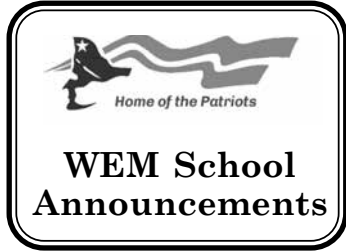

Annabelle Schulz takes the treats out of her found eggs during the McIntosh Easter Egg Hunt.

Maci Lee looks for eggs to gather in her bag during the Easter Egg Hunt held in McIntosh on Saturday, April 3rd.

Henry Swanson was one of many kids who came out to Erickson Park in McIntosh for the Annual Easter Egg Hunt.

## WEM School Announcements

**Student Council** will be hosting a Blood Drive in the Arts and Events Center on Wednesday, April 28th. Minnesota has a large need for blood donations at this time, our goal is to have 37 donors. All students or staff who give blood will be entered into a drawing for a \$25 gift card to Arco, 10 gift cards will be given away! Please encourage your parents and other family/friends who are 16 and older to donate as well.

**The Win-E-Mac Junior Class** has been given the go ahead to host Prom 2021 once again. (Due to COVID, Prom 2020 was cancelled)

The kids are very excited to have some normalcy back in these unprecedented times. Prom is going to look slightly different this year, but we are hoping to make it a fun and safe night once again for our youth!

The Junior Class parents

will be hosting a fun night of food, games, and prizes for the prom attendees and we are looking for contributions to make this a memorable event for our kids.

If you are interested in donating (cash or prizes) to the Win-E-Mac After Prom Party, please send your donation to: Win-E-Mac School, Attention: Alyssa Hickman, 23130 345th ST SE, Erskine, MN 56535

**Win-E-Mac School** is currently signing kids up for Preschool Screening. We will be having our screening in the McIntosh Bjella Building on Monday, March 22nd by appointment only. Preschool screening is open to all children who are three years old and up who have not been screened. Children must be screened before entering Kindergarten. Families interested can contact Win-E-Mac School office at 218-563-2900 or Heather at 218-689-0605 email: hearls@win-e-mac.k12.mn.us

**Open gym** will be on Sunday's. Masks are required at all times. Elementary Students are welcome to attend from 3:00-4:30 p.m. High School students can attend from 4:30-6:00 p.m. High school students should not come before 4:30 p.m.

## Techniques to revitalize a lawn after a long winter

Pristine, snow-covered landscapes can be wonders to behold.

While that blanket of white is idyllic, a lawn's delicate blades may be paying a hefty price beneath the cold, heavy piles of snow.

Snow plows push salt and sand up on the grass while subterranean animals like mice and moles dig burrows beneath piles of snow as they try to find food and stay warm. Such conditions are not favorable for thriving landscapes. When the spring thaw arrives, lawns may be in dire need of some TLC.

The following techniques can mitigate winter-related lawn damage.

### **Clear out debris.**

Remove any scattered leaves, branches and other debris that has been strewn across the property due to storms or snow-laden trees. This will give you a clean canvas to work on.

• **Dry out snow mold.** The Family Handyman says snow mold is a cold-season fungus that causes gray-colored circles or patches on the lawn where there has been snow.

To alleviate snow mold, rake the lawn to loosen matted grass and facilitate the drying-out process.

• **De-thatch the lawn.** Heavy snow can compress the grass and cause some of it to die off.

De-thatching helps to remove dead grass blades and separate any matting. This en-

ables water, nutrients and air to reach the lawn's roots more effectively.

Thinning out old organic matter also helps encourage new growth.

• **Aerate the soil.** Coupled with dethatching, aeration involves loosening the soil or poking holes to allow nutrients to move freely to the roots.

• **Kill weeds before they spread.** Weeds may be the first to start growing when the weather begins to warm. Address them promptly by manually pulling them or applying an herbicide.

• **Overseed the lawn.** Chances are there are some bare spots that have formed over the winter.

Overseeding can help to fill

in the lawn. Make sure that frosts are largely a thing of the past and soil temperature is around 50 F to 60 F before seeding. Water daily until grass fills in.

• **Apply nutrients.** Fertilizer and compost can restore nutrients to the lawn that may have been used up over winter.

A soil test at a nearby horticultural center can tell you which nutrients are needed, according to the Chemistry Cachet, a guide to using chemistry secrets for healthy living, beauty, cleaning, and gardening.

Lawns can be restored to their pre-winter glory after some sweat equity and about five to six weeks of consistent sunshine and warm weather.
