Josie and Randy Myhre received recognition for being the Red Lake County Farm Family of the Year.

2019 Red Lake County Farm Family named at 4-H Awards program - Randy and Josie Myhre

Randy grew up farming with his father, Duane. While still in high school Randy recognized his desire to live his life farming and in 1978 he started renting his own land. Over the years, his operation grew with the help of his wife, Josie, and their children, along with Randy’s dad, brother and uncle. Currently, the Myhres farm 1,600 acres raising corn, soybeans, peas,

wheat and ryegrass.

Randy and Josie’s son, Aaron, farms 200 acres on his own and helps with his parents’ farm. Aaron and his wife, Rebecca, have two children: Jackson and Connor. The Myhres’ daughter, Amanda, is married to Mike Dailing and welcomed a daughter, Peyton, to their family in May.

Randy and Josie are mem-

bers of Bethany Lutheran Church in Red Lake Falls.

They’ve enjoyed being involved in their kids’ school and sports events over the years in addition to community events. Josie handles accounting and tax preparations and currently serves as the Terrebonne Township clerk. Randy and Josie enjoy spending time with their family.

Corn pollination and yield outlook

By: Jeff Coulter,
Extension corn agronomist
Tassels are visible in some corn fields in Minnesota and will emerge in the remaining fields in the coming days. Tassel emergence occurs shortly after the upper leaves are pointing upward. Tassels and silks emerge at about the same time and indicate the start of pollination.

The critical period for yield determination in corn begins two weeks before tasseling and lasts until two weeks after tasseling, with the most important time being the week after tasseling. Stress to corn during this period due to dry soil, especially when accompanied by high air temperature, decreases yield by reducing the number of kernels per plant.

Although high air temperatures occurred in much of Minnesota on a few days last week, it is unlikely that they negatively affected corn in most fields. Heat stress has less of an impact on corn during pollination than drought stress, and typically does not occur until air temperature exceeds 86°F with dry

soil or 92°F with adequate soil moisture and high humidity.

Drought and/or heat stress before pollination affects the number of potential kernels per row. It also delays silk emergence while accelerating or not affecting pollen shed, resulting in asynchrony between silk emergence and pollen shed. This can result in poor kernel set.

Combined drought and heat stress shortly after tassel emergence can cause exposed silks to dry quickly and be less receptive to pollen. The success of kernel set can be evaluated during and soon after pollination by carefully unwrapping husks and gently shaking ears, as silks detach from the ear within a couple days after they have been pollinated. Silks that do not detach have either not received pollen or received pollen very recently.

Drought stress following successful pollination is more common in Minnesota. This results in kernel loss at the tip of ears; however, kernel loss can occur in other patterns on ears

if drought stress is intense or combined with other stresses.

A crop simulation model was used to evaluate the impact of this season’s weather on corn development and yield potential, and their variability across the Corn Belt. This was done on July 15 for many locations (including three in Minnesota) by researchers at the University of Nebraska as part of a multi-state project. Results are available at: July 15 Corn Yield Forecasts. Updated forecasts will be available in early August.

As of July 15, most corn in the Corn Belt was in the vegetative stage and its development was behind normal and that of last year. Overall, yield potential is variable and uncertain at this time, and will largely depend on weather conditions from now through mid-August.

Corn typically reaches maturity 55 to 60 days after the start of pollination. With this year’s later start to corn pollination, growers should anticipate wetter grain at harvest.

More educational resources on corn production are available at Extension’s Corn Production website.

Red Lake County Commissioners Minutes

RED LAKE COUNTY Regular Meeting Held July 9, 2019

Pursuant to adjournment of its regular meeting the Red Lake County Board of Commissioners duly met in regular session at the courthouse in Red Lake Falls, MN on July 9, 2019 at 10:00 a.m. Chairman Weiss called the meeting to order. Commissioner Dudycha was absent. The Pledge of Allegiance was recited.

Commissioner Flage moved to approve the agenda. Motion seconded by Commissioner Simpson and carried unanimously.

County Highway Engineer Eric Hove was present to request approval of a County Resolution to utilize funding from the county's CSAH Construction Allotment with the state to construct a salt/sand storage building. Commissioner Flage moved, seconded by Simpson and carried by unanimous vote to approve Resolution No. 07-01-19 "Salt/Sand Storage Facility Project" as follows:

WHEREAS, Red Lake County desires to use part of its Regular County State Aid Highway (CSAH) Construction Account Fund for a portion of the Highway Salt/Sand Storage Facility Project, and;

WHEREAS, Red Lake County requests a level of funding for this project based on the percentage of CSAH expenditures (56%) to total cost.

WHEREAS, the total estimated cost of the facility is \$200,000.

NOW, THEREFORE BE IT RESOLVED; that the County of Red Lake hereby requests regular CSAH Construction Account funds in the amount of \$112,000 for the construction of a Salt/Sand Storage Facility. The Board Chair and County Auditor are authorized signers. A complete document is available at the County Highway Department.

Hove mentioned the Maintenance Foreman currently does not have a work computer. Hove requested to purchase a new Laptop computer for his use and turn over his current office computer to the Maintenance Foreman. Hove mentioned the laptop will allow his department to better communicate and be sufficient to operate the AutoCAD software for roadway design. Cost and installation is \$4,361.00 under the county IT contract. Hove also requested to purchase a new desk for his office at a \$1,600.00 approximate cost. Commissioner Flage moved, seconded by Remick and carried by unanimous vote to approve both purchases as presented.

Hove commented that he is meeting with FEMA officials later in the day to assess some culvert/road washouts in the county.

Commissioner Simpson moved, seconded by Flage and carried unanimously to approve the following expenditures for the period:

Vendor	Amount
Brault Construction, LLC	\$ 3,153.46
Counties Providing Technology	13,756.00

H&R Construction	5,959.22
Kruse Backhoe Service, LLC	3,086.88
Nelson International 121,169.62

Commissioner Simpson moved, seconded by Remick and carried unanimously to approve the minutes of the regular board meeting held on June 25, 2019 as presented.

The following Commissioner/Committee reports were shared:
Commissioner Meeting/Report
Simpson: None.
Flage: None.
Remick: Union Negotiations, and a SWCD meeting discussing the enforcement of the buffer strip requirements as there are 23 non-compliant landowners. County Environmental Officer Curt Casavan is sending out letters notifying to get in compliance or the county will complete and assess the cost to the landowner.

Weiss: Union Negotiations, and a NWRDC meeting discussing the recent audit, Area Aging Eldercare PAS Grant, Medic-Care Management with Pharmacy Consultants, Inc., and the Region Transportation Contract.

Environmental Officer Casavan was present to provide the board an update on the re-permitting process for the two county demolition landfills. Casavan has met with MPCA officials and provided the necessary documentation but it appears the objective of the MPCA is to close the landfill at Oklee and have the county transport all demolition to the Red Lake Falls location for disposal. Casavan asked if his department could utilize the old County Highway Department gravel truck instead of the county selling at auction, as it's no longer being used since a new tandem truck was purchased. The board members agreed with the request. Cost reimbursement will be provided to the Highway Department from the Environment Services Department budget at a price yet to be determined.

Commissioner Simpson moved, seconded by Flage and carried by unanimous vote to close the regular meeting at 10:54 a.m. to discuss Local 49 Union Negotiations. The regular meeting was re-opened at 11:11 a.m.

The board acknowledged correspondence for the NW Regional Development regarding the July 2, 2019 monthly board meeting.

There being no further business the meeting was adjourned to July 23, 2019 at 10:00 a.m.

Plummer Fourth of July

This 1938 John Deere BR is owned by Donald Scott from St. Hilaire and was driven by Heath Rosten.

In the picture above is a 1945 McCormick W-4 owned by Craig Torkelson from Thief River Falls. Most of these tractors were on display at the Tri River Museum at the Tractor Show on the Fourth.

This restored red 19964 Chevy Impala Convertible is owned by Kory and Carol Chervestad from Oklee.

Don Yaggie & Sons Farms located in Breckenridge and Brooks had a number of vehicles in the parade on the Fourth of July. This float represents Hefty Seed Company.

This little cute gal was dressed in red, white & blue and was excited every time a new float turned the corner and was one of the biggest fan of the 4th of July Parade. She enjoyed getting all the candy too!

Bonny's Bits...
okleeherald@gmail.com

The weather has been beautiful and we have taken advantage of that. Many smaller projects around the yard have been completed. We put in a campfire ring in so we can enjoy evenings relaxing after a busy day.
We discovered that a rock pile was covering a old tree stump, so we used the rocks from that spot and lined the fire ring, then till up the area and will be planting grass. One less thing to mow around. There were two other tree stumps that we have been working on also, one pulled out easily but the other needs more digging around it and then we will burn it down below ground level and fill it in with dirt.
We had a family reunion in Red Lake Falls a week ago with the Cote side and it was great to see many of the cousins that we seldom see except at funerals. This was much more fun and family stories and histories were shared. All four of Vi's sons were there and that is hard to accomplish since they all have busy lives. I'm sure other families have the same problem getting together.
Oklee is preparing for Oklee Market Day which is just around the corner. It will be held on August 10th that they look like they have many things planned for the day. The weather has usually been great on Oklee Market Day, let hope it hold for this year also.
Here is something from my email. I hope you enjoy it.

It's a gloomy day today so it is a "Stay at Home Day." The sun came up very big but it soon decided to crawl under the clouds. It does peek through every half hour or so.

I have forgotten to tell about the lovely yard that Pat Asselin has trimmed. It is outstanding, and if you haven't had a chance to tour it, you are missing a great tour. I know her husband helps with some of the work, but Pat adds something new every year. She does this every year and is always happy to show you her work.

The ladies are going to the play this week and I will report on their trip next week.

I just heard a former resident of Oklee had passed. Florence Bernier had been

living away from Oklee since after she graduated. She was living near the Twin Cities for some time. I knew her very well as she was very often at our cafe many years ago.

Dates to Remember

Aug. 13: Potluck Meal at 5 p.m. Come and bring a dish to share. It is held at the Cafe.

Aug. 15: Senior Site Council meeting at 10 a.m.

Aug. 16: Birthday meal.

Words of Wisdom

If an advertisement announces a "free inspection," you can bet they'll discover a problem.

Remember, a three-week

vacation is about seven days too long.

Be prepared, then get lucky.

Joke Time

Unknown to most of the congregation, the new minister enjoyed an occasional bottle of wine. One church member aware of this, presented the clergyman with a bottle of Bordeaux. But the gift had a string attached. The minister would have to say thank you from the pulpit. At the conclusion of the next service, the minister made announcements, then said, "And I want to thank my friend for giving the fine fruit, and for the spirit in which it was given."

We are still in need of rain in our little corner of the world. The hole in the sky seems to hold. We get a shower of a couple of hundredths of rain, and everyone else gets a quarter of an inch or half inch of rain. It is getting rather old here with trying to grow a garden or flowers. I guess we were not supposed to have production in planting seeds. No rest for the wicked I guess.

Joyce and Perry Morinville celebrated their 41st anniversary in North Dakota going fishing, golfing and then taking in the Frost Fire Theater show about the 50's. Joyce said it was a very entertaining show. I heard that the music of the 50's was really great. It sparked me to get tickets for the last show on Wednesday evening the 31st. It should be fun. Happy Anniversary to you Joyce and Perry.

Jess and Heidi Determan went to Sky Vu Drive In theater on Friday to see the Lion King. They enjoyed the show and it was their night out without the kids and they enjoyed joshing around with Steve Novak.

Community Ed is taking the

young kids from the area to see the Lion King at Fosston on Wednesday this week. This is a wonderful deal for the kids and such a generous deal for them to get to see a fun show and have a summertime fun trip to do something without parents. Thank you to Community Ed for your generosity.

Cindy Determan went with the girls to Summerfest to enjoy the petting zoo that was at Summerfest. Elizabeth and Emma and Mickayla enjoyed all enjoyed going to the bouncy houses also provided for the kids at Summerfest.

On Saturday evening Cindy and Del Determan went to supper with Scott and Judy Morinville.

Lat weekend Cindy and Del Determan were joined by cousins Clint and Lynette Sixta of Willmar and their friend David Barents on a bike ride to Itasca, Bemidji, and Pine Lake for supper. They put on over three hundred miles on their motorcycles. It was a fun ride.

On Sunday last week, Dan and Shirley Jolly and the Determans went to breakfast

Tuesday, I went to the Ro-

seau Fair and met my sister Phyllis Unruh, and her granddaughter Kailani for lunch. Welisted to music under the tent, went for lunch at the church tent, and went to the barns. I enjoyed looking at the exhibits. They are really great to see. Also in the morning I met my brother Allan at the horse arena and we visited a while.

On my way home, I stopped by Loretta Hesse's in Thief River Falls. Lorna Jesme was there and we visited and had coffee and cookies.

Thursday Anna DeHate, Bunny DuChamp, Ann Traxler, Wilma Arlt, and Alice Jobe went to dinner at Moran's for lunch. They had the salad bar and also choice of sandwiches. It was fun.
